

*Do you pull over for an emergency vehicle with its **RED** lights flashing ?*

*Do you stop for a vehicle in front of you that has its **RED** brake lights on?*

*Do you stop at a **RED** traffic light?*

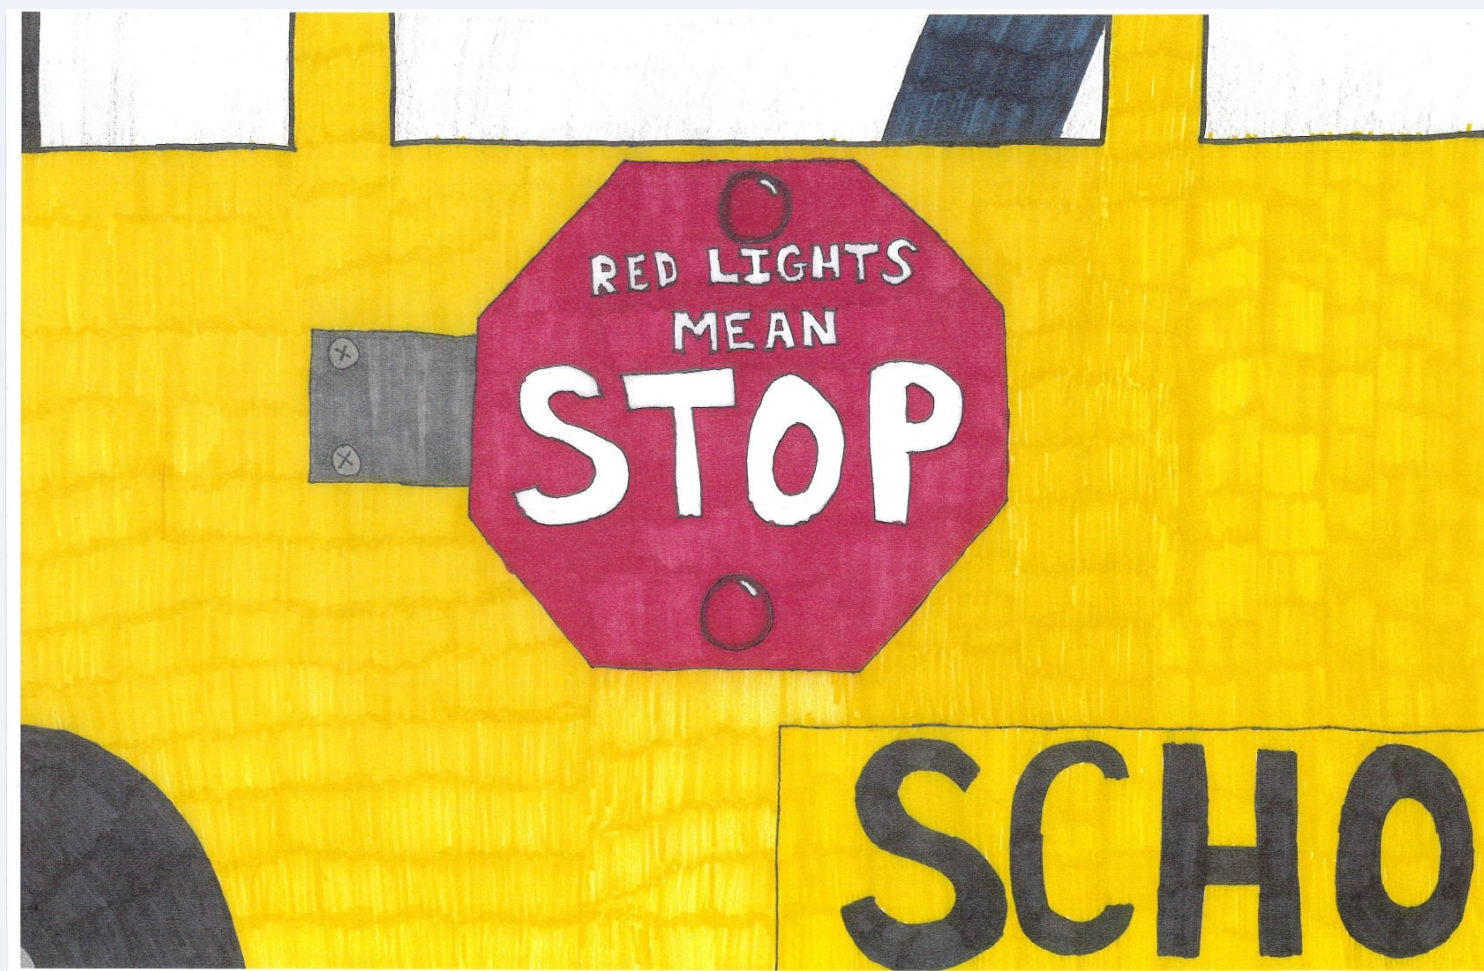

*If you answered **YES** to any of the above than you also need to ask yourself, “Do I stop for a school bus with its upper **RED** lights flashing?”*

*If you answered **NO** to any of the above than you are part of the problem.*

*School buses are equipped with bright **RED** lights on the front and rear of the bus to provide sufficient notice to oncoming traffic from both directions.*

They are one of the largest vehicles on the road in our district and bright yellow in color, making them visible from a distance.

There is no excuse to risk taking the life of an innocent child getting on or off the bus.
