

Newton County School System Elementary Digital Learning Days

Families,

We are excited about our upcoming Digital Learning Days scheduled for October 7<sup>th</sup> and February 24<sup>th</sup>. The purpose of Digital Learning Days is to provide students with engaging activities that support daily instruction in the areas of English Language Arts, math, science, and social studies. Students will explore, investigate, and create evidence of their learning. Please help your child complete all activities by **Friday, October 21**. You can find additional information about your child's activities posted on our school's website at [wnes.newtoncountyschools.org](http://wnes.newtoncountyschools.org).

Let's flood social media and show everyone why NCSS is the BEST! #NCSSBETHEBEST @WestNewtonElem.

We want to hear from you. Please provide feedback regarding digital learning days using the link below.
