ATHLETIC ELIGIBILITY REQUIREMENTS FOR HIGH SCHOOL STUDENTS
Per the FHSAA Handbook/Operational Bylaw, Article 9

Parent Initial

- 9.1.1.1 Participation in Interscholastic Athletics is a Privilege. Participation in interscholastic athletic programs by a student is a privilege, not a right. Students who participate are required to meet the requirements established in state law, FHSAA regulations, and by their respective schools.

- 9.1.1.1 Local Rules May Be More Stringent. Schools and/or school districts may adopt more stringent rules for the students under their supervision. No school, or school district, however, may adopt rules that are less stringent than those of the FHSAA.

- 9.1.2.2 Falsification of Information. A student and/or parent/legal guardian appointed by a court of competent jurisdiction falsifies information to gain eligibility shall be declared ineligible to represent any member school for a period of one year from the date of discovery.

- 9.1.2.3 Eligibility of Recruited Students. A student may be declared ineligible based on violation of recruiting rules if: (a) The student of parent/legal guardian appointed by a court of competent jurisdiction has falsified any enrollment or eligibility document; or (b) The student or parent/legal guardian appointed by a court of competent jurisdiction accepted any benefit or any promise of benefit if such benefit is not generally available to the school's students or family members; or (c) The benefit or promise of benefit is based in any way on athletic interest, potential, or performance.

- 9.2.1 Student May Participate at School he/she First Attends Each School Year. A student must attend school and is immediately eligible to participate in the interscholastic athletic programs sponsored by the school he/she attends each school year, which is either: (a) The school where the student first attends classes (i.e., establishes school residency); or (b) The school where the student first participates in athletic activities on or after the official start date of the sport season before he/she attends classes at any school (i.e., establishes school residency); or (c) The school the student transfers to after previously attending another school (Reference Bylaw 9.3.2).

- 9.3.4 Ineligible Student Cannot Transfer to Become Eligible. A transfer student who is deemed ineligible for a period of time cannot transfer schools and become eligible. Attending a new school at the beginning of the school year does not decrease or eliminate the period of ineligibility.

- 9.4.1 2.0 GPA Required for Academic Eligibility. A high school student must have a cumulative 2.0 grade point average on a 4.0 unweighted scale, or its equivalent, at the conclusion of each semester to be academically eligible during the next semester. Final grades previously earned by the student from another school shall not be converted using the scale in Bylaw 9.4.2.

- 9.4.1.3 Attendance During Previous Two Consecutive Semesters Required. A student cannot be academically eligible if he/she has not attended school and received grades for all courses taken during the previous two consecutive semesters.

- 9.4.1.9 Student Not Eligible for One Full Semester if Transcript Cannot be Obtained. A student whose former school cannot or will not provide an official sealed transcript will not be eligible in the new school until he/she has been in attendance for one full semester and has established a cumulative GPA. The school must submit a written report to the FHSAA Office that includes the student's name, date of first attendance in the school, and the beginning and ending dates of the previous semester.

- 9.5.1 High School Student Has Four Years of Eligibility. A student is limited to four consecutive school years of eligibility beginning with school year he/she begins ninth grade for the first time. This does not imply that the student has four years of participation. After four consecutive school years, the student is permanently ineligible.

- 9.6.1 High School Age Limit. A student who reaches the age of 19 prior to September 1st shall become permanently ineligible.

I/W E HAVE READ, AND HAVE INITIALED, EACH FHSAA ELIGIBILITY REQUIREMENT FOR HIGH SCHOOL STUDENTS AND ACKNOWLEDGE THAT OUR SON/DAUGHTER/WARD MUST MEET FHSAA STANDARDS IN ORDER TO BE CONSIDERED ELIGIBLE FOR INTERSCHOLASTIC ATHLETICS.

COVID-19 and Voluntary Extracurricular Activities
Summer 2021 and School Year 2021-22

I desire to participate or allow my child(ren) to participate in one or more voluntary extracurricular activities sponsored by the School Board of Palm Beach County, Florida, and the School District of Palm Beach County, Florida (collectively, “PBCSD”). The novel coronavirus known as COVID-19 has been declared as a worldwide pandemic and is believed to be contagious and spread by person-to-person contact or contact with objects exposed to an infected person. Federal, state, and local agencies recommend social distancing and other measures to prevent the spread of COVID-19.

PBCSD will conduct certain extracurricular activities beginning in the Summer of 2021 and continuing into the 2021-22 school year. These activities, hereinafter known as “Activity,” will be conducted with safety protocols appropriate under the circumstances at the time. For the safety of all people involved, participants in the Activity will be required to adhere to all safety protocols and are subject to immediate removal from the Activity if they do not comply. Extracurricular activities are a privilege, and not a right, of public school students.

In an effort to ensure the safety and wellness of our school community, I understand the importance of students being healthy and safe when they participate in the Activity. By signing below, I agree that I will:

- Perform daily temperature checks on my child(ren) to screen for fever before arrival for the Activity. Fever is defined as a temperature over 100.4 F or 38.0 C. If my child(ren) has a fever, I will not permit my child(ren) to participate in the Activity until he/she has been without a fever for at least 72 hours.

- Make a visual inspection of my child(ren) for signs of illness which could include: fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, diarrhea, flushed cheeks, rapid breathing or difficulty breathing (without recent physical activity), fatigue, or extreme fussiness. If my child(ren) has exhibited any of these signs or symptoms, I will not permit my child(ren) to participate in the Activity until he/she has been without signs or symptoms for at least 72 hours.

- Confirm that my child(ren) has not been in contact with someone who has either tested positive for COVID-19 in the past 14 days or is waiting for test results. If my child(ren) has been in contact with such a person, I will not permit my child(ren) to participate in the Activity until 14 days have elapsed since the time of contact.

- Promptly pick up my child(ren) or arrange for pickup if signs or symptoms of illness are present. I understand that children are to remain home until illness-free for at least 72 hours without the use of medicine.
By signing this document below, I acknowledge and affirm all of the statements above. I also voluntarily assume all risks that I and/or my child(ren) may be exposed to or infected by COVID-19 as a result of participation in the Activity, and that such exposure or infection may result in personal injury, illness, sickness, and/or death. I understand that the risk of exposure or infection may result from the actions, omissions, or negligence of myself, my child(ren), PBCSD employees, staff, volunteers, or agents, other Activity participants, or others not listed, and I acknowledge that all such risks are known to me.

I also acknowledge and understand that before being allowed to participate in the Activity, my child may be subjected to non-invasive health screening, including but not limited to the use of an infrared thermometer; my child may, at PBCSD's discretion, be denied participation in the Activity based on the results of the screening.

In consideration of my and my child(ren) being able to participate in the Activity, I, on behalf of myself, as well as anyone entitled to act on my behalf, hereby forever waive, release, and hold the School Board of Palm Beach County, Florida, and its employees and agents harmless from any and all claims, suits, liability, actions, judgments, attorneys' fees, costs, and any expenses of any kind resulting from injuries or damages, grounded in tort or otherwise, that I and/or my child(ren), or my or our representatives, sustain during or related to my child(ren)’s participation or involvement in the Activity.

Concussion Information

Concussion is a brain injury. Concussions, as well as all other head injuries, are serious. They can be caused by a bump, a twist of the head, sudden deceleration or acceleration, a blow or jolt to the head, or by a blow to another part of the body with force transmitted to the head. You can’t see a concussion, and more than 90% of all concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. All concussions are potentially serious and, if not managed properly, may result in complications including brain damage and, in rare cases, even death. Even a “ding” or a bump on the head can be serious. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, your child should be immediately removed from play, evaluated by a medical professional and cleared by a medical doctor.

Signs and Symptoms of a Concussion:

Concussion symptoms may appear immediately after the injury or can take several days to appear. Studies have shown that it takes on average 10-14 days or longer for symptoms to resolve and, in rare cases or if the athlete has sustained multiple concussions, the symptoms can be prolonged. Signs and symptoms of concussion can include: (not all-inclusive)

- Vaomiting or seeing stars
- Lack of awareness of surroundings
- Emotions out of proportion to circumstances (inappropriate crying or anger)
- Headache or persistent headache, nausea, vomiting
- Altered vision
- Sensitivity to light or noise
- Delayed verbal and motor responses
- Disorientation, slurred or incoherent speech
- Dizziness, including light-headedness, vertigo/spinning or loss of equilibrium (being off balance or swimming sensation)
- Decreased coordination, reaction time
- Confusion and inability to focus attention
- Memory loss
- Sudden change in academic performance or drop in grades
- Irritability, depression, anxiety, sleep disturbances, easy fatigability
- In rare cases, loss of consciousness

Dangers If Your Child Continues to Play With a Concussion or Returns Too Soon:

Athletes with signs and symptoms of concussion should be removed from activity (play or practice) immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to sustaining another concussion. Athletes who sustain a second concussion before the symptoms of the first concussion have resolved and the brain has had a chance to heal are at risk for prolonged concussion symptoms, permanent disability and even death (called “Second Impact Syndrome” where the brain swells uncontrollably). There is also evidence that multiple concussions can lead to long-term symptoms, including early dementia.

Steps to Take If You Suspect Your Child Has Suffered a Concussion:

Any athlete suspected of suffering a concussion should be removed from the activity immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without written medical clearance from an appropriate health-care professional (ACP). In Florida, an appropriate health-care professional (ACP) is defined as either a licensed physician (MD, as per Chapter 458, Florida Statutes); a licensed osteopathic physician (DO, as per Chapter 459, Florida Statutes). Close observation of the athlete should continue for several hours. You should also seek medical care and inform your child’s coach if you think that your child may have a concussion. Remember, it’s better to miss one game than to have your life changed forever. When in doubt, sit them out.

Return to Play or Practice:

Following physician evaluation, the return to activity process requires the athlete to be completely symptom free, after which time they would complete a step-wise protocol under the supervision of a licensed athletic trainer, coach or medical professional and then, receive written medical clearance of an ACP.

For current and up-to-date information on concussions, visit http://www.edwc.gov/concussioninyouthsports/ or http://www.seeingstarfoundation.org

Statement of Student Athlete Responsibility:

Parents and students should be aware that preliminary evidence suggests repeat concussions, and even hits that do not cause a symptomatic concussion, may lead to abnormal brain changes which can only be seen on autopsy (known as Chronic Traumatic Encephalopathy (CTE)). There have been case reports suggesting the development of Parkinson-like symptoms, Amyotrophic Lateral Sclerosis (ALS), severe traumatic brain injury, depression, and long term memory issues that may be related to concussion history. Further research on this topic is needed before any conclusions can be drawn.

I acknowledge the annual requirement for my child/ward to view “Concussion in Sports” at www.allbetslearn.com. I accept responsibility for reporting all injuries and illnesses to my parents, team doctor, athletic trainer, or coach associated with my sport including any signs and symptoms of CONCUSSION. I have read and understand the above information on concussion. I will inform the supervising coach, athletic trainer or team physician immediately if I experience any of these symptoms or witness a teammate with these symptoms. Furthermore, I have been advised of the dangers of participation for myself and that of my child/ward.

Sudden Cardiac Arrest and Heat-Related Illness (Page 3 of 4)
This completed form must be kept on file by the school. This form is valid for 365 calendar days from the date of the most recent signature.

School: ___________________________ School District (if applicable): ___________________________

Sudden Cardiac Arrest Information

Sudden cardiac arrest (SCA) is a leading cause of sports-related death. This policy provides procedures for educational requirements of all paid coaches and recommends added training. Sudden cardiac arrest is a condition in which the heart suddenly and unexpectedly stops beating. If this happens, blood stops flowing to the brain and other vital organs. SCA can cause death if it’s not treated within minutes.

Symptoms of SCA include, but not limited to: sudden collapse, no pulse, no breathing.

Warning signs associated with SCA include: fainting during exercise or activity, shortness of breath, racing heart rate, dizziness, chest pains, extreme fatigue.

It is strongly recommended that all coaches, whether paid or volunteer, be regularly trained in cardiopulmonary resuscitation (CPR) and the use of an automated external defibrillator (AED). Training is encouraged through agencies that provide hands-on training and offer certificates that include an expiration date. Beginning June 1, 2021, a school employee or volunteer with current training in CPR and the use of an AED must be present at each athletic event during and outside of the school year, including practices, workouts and conditioning sessions.

The AED must be in a clearly marked and publicized location for each athletic contest, practice, workout or conditioning session, including those conducted outside of the school year.

What to do if your student-athlete collapses:
1. Call 911
2. Send for an AED
3. Begin compressions

FHSAA Heat-Related Illnesses Information

People suffer heat-related illness when their bodies cannot properly cool themselves by sweating. Sweating is the body’s natural air conditioning, but when a person’s body temperature rises rapidly, sweating just isn’t enough. Heat-related illnesses can be serious and life threatening. Very high body temperatures may damage the brain or other vital organs, and can cause disability and even death. Heat-related illnesses and deaths are preventable.

Heat Stroke is the most serious heat-related illness. It happens when the body’s temperature rises quickly and the body cannot cool down. Heat Stroke can cause permanent disability and death.

Heat Exhaustion is a milder type of heat-related illness. It usually develops after a number of days in high temperature weather and not drinking enough fluids.

Heat Cramps usually affect people who sweat a lot during demanding activity. Sweating reduces the body’s salt and moisture and can cause painful cramps, usually in the abdomen, arms, or legs. Heat cramps may also be a symptom of heat exhaustion.

What’s at Risk?
Those at highest risk include the elderly, the very young, people with mental illness and people with chronic diseases. However, even young and healthy individuals can succumb to heat if they participate in demanding physical activities during hot weather. Other conditions that can increase your risk for heat-related illness include obesity, fever, dehydration, poor circulation, sunburn, and prescription drug or alcohol use.

By signing this agreement, I acknowledge the annual requirement for my child/ward to view both the “Sudden Cardiac Arrest” and “Heat Illness Prevention” courses at www.fhsaahs.com. I acknowledge that the information on Sudden Cardiac Arrest and Heat-Related Illness have been read and understood. I have been advised of the dangers of participation for myself and that of my child/ward.

Attention Student and Parent(s)/Guardian(s)

Your school is a member of the Florida High School Athletic Association (FHSAA) and follows established rules. To be eligible to represent your school in interscholastic athletics, in an FHSAA recognized and/or sanctioned sport, the student:

1. **This form is non-transferable; a separate form must be completed for each different school at which a student participates.**

2. Must be regularly enrolled and in regular attendance at your school. If the student is a home education student, a charter school student, a special/alternative school student, non-member private school student or Florida Virtual School Full-time Public Program student, the student must declare in writing his/her intent to participate in athletics to the school at which the student is permitted to participate. Home education students and students attending non-member private schools must be approved through the use of a separate form prior to any participation. (FHSAA Bylaw 9.2, Policy 16 and Administrative Procedure 1.8)

3. Must attend school within the first 10 days of the beginning of each semester to be eligible during that semester. (FHSAA Bylaw 9.2)

4. Must maintain at least a cumulative 2.0 grade point average on a 4.0 unweighted scale prior to the semester in which the student wishes to participate. This GPA must include all courses taken since the student entered high school. A sixth, seventh or eighth grade student must have earned at least a 2.0 grade point average on a 4.0 unweighted scale the previous semester. (FHSAA Bylaw 9.4)

5. Must not have graduated from any high school or its equivalent. (FHSAA Bylaw 9.4)

7. Must not turn 19 before July 1st to participate at the high school level; must not turn 16 prior to September 1st to participate at the junior high level; and must not turn 15 prior to September 1st to participate at the middle school level, otherwise the student becomes permanently ineligible. (FHSAA Bylaw 9.6)

8. Must undergo a pre-participation physical evaluation and be certified as being physically fit for participation in interscholastic athletics on a form (EL2). (FHSAA Bylaw 9.7)

9. Must have signed permission to participate from the student’s parent(s)/legal guardian(s) on a form (EL2) provided the school. (FHSAA Bylaw 9.8)

10. Must be an amateur. This means the student must not accept money, gift or donation for participating in a sport, or use a name other than his/her own when participating. (FHSAA Bylaw 9.9)

11. Must not participate in an all-star contest in a sport prior to completing his/her high school eligibility in that sport. (FHSAA Policy 26)

12. Must display good sportsmanship and follow the rules of competition before, during and after every contest in which the student participates. If not, the student may be suspended from participation for a period of time. (FHSAA Bylaw 7.1)

13. Must not provide false information to his/her school or to the FHSAA to gain eligibility. (FHSAA Bylaw 9.1)

14. Youth exchange, other international and immigrant students must be approved by the FHSAA office prior to any participation. Exceptions may apply. See your school’s principal/athletic director. (FHSAA Policy 17)

15. Must refrain from hazing/bullying while a member of an athletic team or while participating in any athletic activities sponsored by or affiliated with a member school.

If the student is declared or ruled ineligible due to one or more of the FHSAA rules and regulations, the student has the right to request that the school file an appeal on behalf of the student. See the principal or athletic director for information regarding this process.

By signing this agreement, the undersigned acknowledges that the information on the Consent and Release from Liability Certificate in regards to the FHSAA's established rules and eligibility have been read and understood.

Our mission
The University of Miami Concussion Program at the KIdZ Neuroscience Center - part of the Miami Project to Cure Paralysis - provides South Florida with a solution to the growing concern of concussions in youth, high school, collegiate, and professional sports.

Our program
The Concussion Program provides a comprehensive concussion management program that offers multidisciplinary services across all levels of play.

What is a concussion?
A concussion is a medical diagnosis for a mild traumatic brain injury (mTBI). Mild traumatic brain injuries are caused by biomechanical forces, such as a direct blow to the head, face, neck, or a violent change of direction. These forces can temporarily alter how your brain functions.

More importantly, if a concussion is left untreated or is compounded by additional concussions, permanent brain injury may result.

Concussions can occur with or without a loss of consciousness, and symptoms may last for a few weeks or months. Symptoms of a concussion may include:

- Headaches
- Confusion or the feeling of being “in a fog”
- Dizziness or balance problems
- Fatigue or drowsiness
- Nausea / vomiting
- Sensitivity to light and noise
- Irritability or nervousness

CONCUSSIONS MUST BE PROPERLY MANAGED.

6 steps to play safe

1. Pre-season baseline
   A baseline test must be administered prior to play:
   - The Immediate Post-concussion Assessment and Cognitive Test (ImPACT) measures verbal and visual memory, reaction times, and potential symptoms.
   This test is administered before the season for athletes 13 years of age or over that play contact sports.

2. Sideline testing
   Once an athlete shows signs or symptoms of a concussion, a player must be immediately removed from play and evaluated by a certified athletic trainer (ATC) using a sideline assessment tool, such as SCAT3. This measure assists in removing athletes from play.

3. Post-injury ImPACT test
   Within 24 to 72 hours of injury, we recommend that the ATC perform a post-injury ImPACT test. The ATC will inform the parent to make an appointment at the UHealth Concussion Clinic.

4. Clinic follow-up
   An athlete may be scheduled in our concussion clinic as soon as possible following the injury to receive:
   - Neurological evaluation & concussion education
   - Review of ImPACT scores by a Certified ImPACT Consultant (CIC)
   - Recommendations for return to play and return to learn
   - Vestibular evaluation
   - Neuropsychological assessment

5. Return to play
   An athlete must be completely free of symptoms for this step. After evaluation and examination by a physician, athlete should begin 3-4 day step-wise gradual return to play (GRTP) protocol.
   If symptom free following GRTP, athlete may return to full contact play once medically cleared (in writing) by a physician.

6. Injury surveillance
   Once the athlete has returned to full-contact activities, the ATC will fill out the surveillance form at UConcussion.com.
   This information will help us improve and monitor our concussion program, in addition to preventing future injuries.

This protocol was developed for the management of concussions in high school athletes, based on recommendations contained in the NFHS Concussion Action Plan and 2016 Berlin Conference Statement on Concussion in Sport.
