

Dear Parents and Guardians,

Any student in kindergarten, first, or second grades has the exciting opportunity to be assigned a Chromebook for use over the summer!

This will provide several advantages for students, such as:

- Access to their Chromebook for summer programs
- Educational materials to enhance learning opportunities
- Familiarizing themselves with the responsibility of Chromebook care and maintenance
- Immediate access to their Chromebook at the start of the school year

Any family who wishes to take advantage of this opportunity for their child will need to attend an informational meeting at the school.

This meeting will be held at **Betty Jane CLC**

On **5/23/19**

From **3:00-4:00**

In **Room 103**

Each student will be responsible for their Chromebook, the charger, and the case in which it comes home. In the event of damage that needs repair or loss that needs to be reported over the summer, devices can be brought to the Akron Public Schools Technology Services Department at 10 North Main Street, Akron, Ohio 44308.

If you **do not** wish for the Chromebook to come home with your student over the summer break, there is **nothing that you need to do** at this time.

Please contact the school for additional information.

**Jennifer Lucas**  
**Principal**  
**Betty Jane CLC**

---

**I will attend the informational meeting at the school so that my child is able to take advantage of the opportunity to bring a Chromebook home over Summer Break.**
