Updates to BCSD COVID-19 Protocols:

Effective Monday, Jan. 31, our school buildings will no longer perform student temperature checks in the mornings. This is due to the fact that we've significantly increased student COVID testing with the Test-To-Stay program, which is helping us identify positive students before they have contacts in the building. Please continue to screen your child for any symptoms or fever before sending them to school. Students participating in the Test-to-Stay program will also have their temperatures taken when the COVID-19 test is administered.

Currently, the New York State Education Department mask mandate remains in effect for schools across the state, as Governor Hochul and the NYS Department of Health continue with the appeal of the recent Nassau County court ruling. We will communicate any changes or updates with our school community as soon as possible, and we appreciate your patience and understanding during this process.

Educating, empowering, and challenging all students to become productive, global citizens through innovative approaches to learning.
