Thank you for all you are doing at BHS - we really appreciate the challenges and the efforts all are making!

Students need to be active - what else can we offer so they don't have to be sitting still but involved?

Although there's a lot to be said for the students having 30 minutes to just sit, relax and chat with their friends. Having social time is very important. – ANONYMOUS

**Is there a safety plan for the cafeteria during a lock down?
Specifically addressing the windows?**
