Binghamton Families...please read the following message from the Broome County Health Department:

Dear Broome County School Districts,

Students, staff, faculty, and family members can now enroll in our symptomatic testing program! Self-enrollment allows us to respond quickly and efficiently to testing needs throughout your school community. After clicking the link below, people will be asked to provide some basic information (name, phone number, school district, etc.) and consent for either themselves or their children to participate.

Remember that enrollment does not reserve a particular date and time for a test, it simply increases the speed with which we can provide tests. It is always better to seek tests through your healthcare provider and our program does not replace regular medical care. The program is a resource that can be used when no other testing options are available.

Here is the link: <https://redcap.link/dsj6ui4p>

Educating, empowering and challenging all students to become productive, global citizens through innovative approaches to learning.
