Signature Form: Notification & Opt Outs

Dear Parents/Guardians and Student,

The school year has started! We are trying to streamline some of our forms. Stevenson-Carson Schools request that students and parents review the handbook, attendance policy, and technology expectations referred to below and in the handbook. Families, please read, checking the opt out boxes if appropriate, and fill out the bottom portion. **Return this form with your child the first day of school.**

Student Handbook

It is important for students, as well as parents, to be aware of the guidelines and procedures. This year we are sending the handbook out electronically in order to save costs. It can also be found on our website.

I do not have access to email or electronic device. Please send me a hard copy.

Attendance Expectations

State law requires children through the age of 17 to attend school. The school is required to take attendance daily, and follow-up with families if a child is not attending. The school is also required to take actions if there are excessive absences, including possible referral to Truancy Court. Please see our student handbook for more information.

Student Photographs

The school periodically takes pictures of students for use in the news, media, awards, district publications, etc. Please check below if you do NOT want these photographs released with your child's image.

I do NOT want pictures of my child release to news, media, publications, etc.

Classroom Recording

Teachers may record their lesson to post in their Google Classroom in order for students to review the lesson or watch it when they were absent during the live presentation.

Communication by Email

In order to reduce paper and printing costs, most of our communication will be electronic. Please make sure we have an up-to-date email address below. If you need a hard copy of any communication, please let the office know. If you do not have email or electronic device and require all communication in hard copy, please check the box below.

I do not have access to email or electronic device. Please send all communication to me in hard copy.

Technology Use and Devices

Technology is an integral part of modern education. It is important that students use technology appropriately as a learning tool. The Stevenson-Carson School District has outlined acceptable use in policy for devices and network. Please review this with your student, as use infractions can result in safety issues and damages. Improper use could result in discipline, limitations to access, or even referral to law enforcement in severe situations.

Contact Information

Having accurate, up-to-date contact information is crucial for good communication and the health and safety of your child. Please regularly check Skyward, or with the office, to ensure we have your regular and emergency contact information accurate in our system.

Student Name: _____ Parent/Guardian Name: _____
