Policy:

RATIONALE

Bluewater District School Board Policies will support and provide direction necessary to achieve the Board's Vision, Mission and Strategic Plan priorities.

Bluewater District School Board recognizes that appropriate Internet access enhances communications, within and outside the organization.

POLICY

Bluewater District School Board provides Internet access for the purpose of advancing the goals of the board as well as for professional development and the education or training of employees. Authorized users of the board Internet connectivity may also use the Internet for Limited personal use. This use is a privilege, not a right and may be removed at any time by management if determined that there has been a violation. Bluewater District School Board does not accept liability for any loss or damage suffered by an employee as a result of that employee using the board Internet connection for personal use.

The Director of Education is authorized to issue such procedures as may be necessary to support this policy.
